Obstacle Course is the debut children's album from kindie newcomer Kristin Kellner. Kristin is a guitar playing, rock 'n' rolling, multitasking mama who loves catchy hooks, playful lyrics, rock, pop and soul. She puts all that together to create music that gets children and adults tapping their toes and singing along.

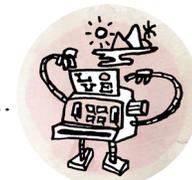

Obstacle Course is eleven original tracks all inspired by family adventure, childhood activities, parenting moments and love. Kristin blends her favorite styles to create an eclectic collection of songs. The title track is an upbeat and somewhat chaotic ode to the playground. The aptly named "Rock 'n' Roll ABCs" is straight up rock 'n' roll you'll want to turn up to eleven! Kristin gets silly and funky with "Chubba Bubba" and brings it home with a mix of country and sweet on "Cutest Baby".

Obstacle Course is for every parent whose living room is a maze of scattered toys, kitchen gadgets, maybe even twigs and rocks. That's right, life has obstacles and you've got to approach them with determination, big smiles and a soundtrack that keeps you motivated to enjoy the ride. Listen to Obstacle Course and let it be your family soundtrack!
